Support
Professional Resources

- Knowledge of discounted hardware & software purchases available to nonprofits
- Network, server, desktop, and website troubleshooting
- Technology training for staff
- Remote & onsite support services

We leverage technology to advance social impact.

▶ DANEnet helps nonprofits with a wide variety of technology needs, from large-scale project planning/implementation to one-time tech support. We can also do monthly tech check-ups and staff tech trainings –whatever you need!

▶ DANEnet has supported *hundreds* of nonprofit organizations in Dane County since 1996, helping them realize the potential of technology to improve their impact.

▶ DANEnet takes care of your nonprofit's technology so you can focus on what matters most to you: *your mission*.
