Online Resources for Learning Computer Skills

PA Adult Education Resources for Basic Computer and Mobile Skills is a great website that provides a wide variety of educational resources covering operating systems, hardware, software, mobile devices, and other skills to improve one's online experience.

GFCGlobal.org offers a wide variety of computer skills tutorials, ranging from basic topics (email, typing, internet safety, etc) to advanced topics such as graphic design, Photoshop, and WordPress.

DigitalLearn.org offers a variety of free online training modules covering basic computer skills, broken down into 2-7 minute videos, with practice activities and pdf downloads of lessons.

This Evaluating Online Sources article on the Rowan University website is a great resource for learning how to discern between credible online sources/information and false information.

Take this Phishing Quiz to hone your scam-spotting skills so you have a better idea of what scammers will do to steal your info through fraudulent emails.

Give this Cyber Security Quiz a try to test your knowledge of staying safe online.

Mouse and Keyboarding Games

Mouse Games

- Crocword Crossword Game: Practice your spelling and work on your mouse skills by clicking and dragging to spell words.

- Bug Bash Game: Click the bugs to swap them around and match them up. When you match three of the same bug in a row, you'll make them disappear.

Keyboarding & Typing Games

- Typing Race: Type to make your car move and see if your typing is fast enough to win the race!

- Typing Alien: Type the word at the bottom of the screen to fill up your ammo, then shoot the aliens to save the world.

- Online Typing Tutor: This fun activity can help you learn to type faster and faster!

- Keyboard Ninja: Play this fruit-slicing game to see how fast you can find the letters on your keyboard.
